

## 2D & Doodle Animation

Doodle Videos are a type of animated marketing or training video. They are another term for Whiteboard Animation Videos. ... As a unique form of animation, doodle videos show a hand drawing the cartoon as a narrator speaks your marketing message.

# Type of videos we deliver

## 1 - Sketching Animation

Sketches are the cornerstone of traditional animation and the starting point for every Disney and Pixar classic. The process of moving a sketch from a concept on paper to a fully-realised onscreen creation is truly fascinating.

**we require-**

Project Storyboard or pdf  
we also provide Background audio.

**Budget-** (15-25k per min video)

Also depends on client Requirements and duration

**(Client satisfaction is our first priority)**

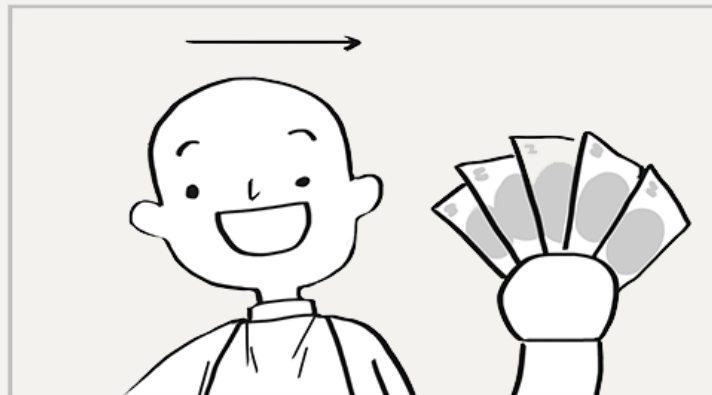

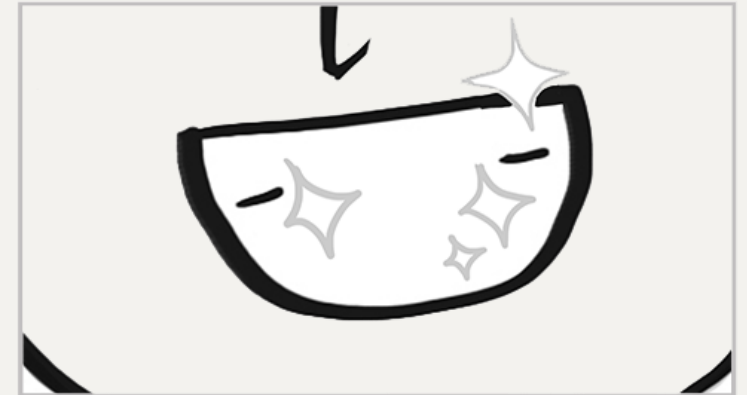

## 2 – Motion Graphics Animation

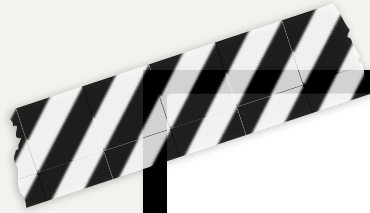

Motion graphics are pieces of animation or digital footage which create the illusion of motion or rotation, and are usually combined with audio for use in multimedia projects.

### 3- 2d storyboard Explanation video

Storyboard specifies the planning process of an animation video. ...  
A storyboard is a shot by shot, graphic representation of the animation video, explaining how the video is going to unfold. It has many illustrations in the form of squares in it
